Step 1: Profile

Step 2: Articles

Step 3: Updates

We'll use a statistical authorship model to identify new articles that you write. We may also update bibliographic information for articles in your profile or identify duplicate article entries, which could be merged or deleted. How would you like to handle these changes?

☐ Automatically update the list of articles in my profile. *(recommended)*

☒ Don't automatically update my profile. Send me email to review and confirm updates.

You can also add and remove individual articles, update their bibliographic data, and merge duplicate records. Rest assured, our automatic updates will preserve your edits and will not override them.

We'll collect and display citations to your articles from all of Google Scholar. The citations will update automatically to reflect changes in your profile and in Google Scholar.

INSTRUCTIONS:

Please follow the steps below to import your contributions.

WARNING: There are many Latex 'standards.' Please **CHECK** your records to ensure all **SPECIAL** symbols have been **DISPLAYED** correctly.

1. Go to Google Scholar or Compendex and extract your publications in BIBTEX format

2. Browse & select the BIBTEX file, and click **IMPORT**. The IMPORT will insert new records and merge with duplicating records.

BIBTEX import file:

The high scientific standards maintained by Journal of Water Supply: Research and Technology-AQUA in its papers owe much to the continuing dedication of the journal's referees, who give freely of their time and expertise. IWA is pleased to pay tribute to this contribution by recognizing those who have participated in the review process. Thus, the Editors of Journal of Water Supply: Research and Technology-AQUA acknowledge with particular gratitude the following referees who have reviewed papers during the period January 2005–December 2005.
